Control	Alt									Alt	Control		

Notes

- Each of the high-stressed vowels *á é í ó ó ú* has been assigned its own key. Each of the accented vowels can be found directly beneath its unaccented version. The only exception is *í* which is two rows under on the **m** key.
- To type the *θ* use the **left-bracket key** [.
- To type the *č* use the **right-bracket key**].
- The glottal stop character ? is on the **Slash key** /.
- On Windows systems, all changed keys can type their original value by holding down the **Right-Alt key**. The letter **Z** is typed **Right-Alt+Z**. In this way, non-Native words can be typed without switching keyboards.
- On Mac systems, you can revert to the US English keyboard layout by pressing the **Caps Lock key**. Releasing the Caps Lock will make the keyboard go back to ’Ǿ’óóónííh.
- Opening and closing quotes. For Mac users, Right-Alt is either of the Option Keys.
 - single: ‘ Grave — ’ Apostrophe
 - double: “ Backslash — ” Shift+Backslash
 - single < Right-Alt+Shift+9 — > Right-Alt+Shift+0
 - double « Right-Alt+9 — » Right-Alt+0
